Active EAFE Equity Fund

FINANCIAL STATEMENTS
FOR THE PERIOD ENDED FEBRUARY 6, 2013

**British Columbia Investment Management Corporation
Active EAFE Equity Fund**

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

British Columbia Investment Management Corporation (bcIMC) manages Pooled Investment Portfolios on behalf of governing fiduciaries such as pension fund trustees and other public sector clients. This report contains the financial statements for the Active EAFE Equity Fund (Fund) for the period ended February 6, 2013.

The financial statements of the Fund have been prepared by management of bcIMC and approved by the Chief Investment Officer/Chief Executive Officer. The financial statements have been prepared in accordance with Canadian generally accepted accounting principles. The significant accounting policies used in the preparation of these statements are disclosed in note 2 to the financial statements. The statements include certain amounts that are based on management's judgement and best estimates.

bcIMC's Board has established an Audit Committee. The Committee's mandate includes making recommendations on the appointment of the external auditor for the Pooled Investment Portfolio, reviewing the external audit plan; reviewing bcIMC's Service Organization Controls Report for the Investment System of British Columbia Investment Management Corporation, and receiving the annual audited financial statements of the Fund. The Committee reviews the recommendations of the internal and external auditors with respect to internal controls and the responses of management to those recommendations, and also meets with management and the internal and external auditors to review annual audit plans.

bcIMC maintains systems of internal control and supporting processes to provide reasonable assurance that assets are safeguarded; that transactions are appropriately authorized and recorded; and that there are no material misstatements in the financial statements. bcIMC's internal control framework includes: a strong corporate governance structure; a code of conduct that includes conflict of interest guidelines; an organizational structure that provides for appropriate segregation of duties and accountability for performance; an enterprise-wide risk management framework that identifies, monitors and reports on key risks; and Board-approved Pooled Investment Portfolio Policies and client-approved investment mandates. bcIMC's system of internal control is supported by internal and external auditors who review and evaluate internal controls and report directly to the Audit Committee.

bcIMC's external auditors, KPMG LLP, have full and unrestricted access to the Audit Committee and bcIMC management. KPMG LLP discusses with management and the Committee the results of their audit of the Fund's financial statements and related findings with respect to such audits. The Fund's financial statements are audited by KPMG LLP in accordance with Canadian generally accepted auditing standards. KPMG LLP has performed such tests and other procedures as they considered necessary to express an opinion on the Fund's financial statements.

INDEPENDENT AUDITORS' REPORT

To the Unitholders of the Active EAFE Equity Fund:

We have audited the accompanying financial statements of the Active EAFE Equity Fund, which comprise the statement of net assets and investments as at February 6, 2013 and the statements of operations and changes in net assets, and of cash flows for the period from January 1, 2013 to February 6, 2013, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Fund's Manager is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian generally accepted accounting principles, and for such internal control as the Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform an audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal controls relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Manager, as well as evaluating the overall financial statement presentation.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, these financial statements present fairly, in all material respects, the net assets and investments of the Active EAFE Equity Fund as at February 6, 2013 and the results of their operations, the changes in their net assets, and their cash flows for the period from January 1, 2013 to February 6, 2013 in accordance with Canadian generally accepted accounting principles.

BRITISH COLUMBIA INVESTMENT MANAGEMENT CORPORATION
POOLED INVESTMENT PORTFOLIO

ACTIVE EAFE EQUITY FUND

**Financial Risk Management Discussion
as at February 6, 2013 and December 31, 2012**

The investment objective of the Active EAFE Equity Fund (the Fund) is to provide clients with a higher rate of return than the Morgan Stanley Capital International (MSCI) Europe, Australasia and Far East (EAFE) Net Index, the Fund's benchmark. The Fund provides clients with a diversity of active management investment styles (e.g., value, growth, and market oriented), exposure to a variety of market outlooks, and exposure to the various segments of international markets, including emerging markets. Active managers within the Fund are selected to add value over full market cycles. The managers operate independently of each other and are given specific value added targets, consistent with their expected risk profile. Each manager may have a different approach to risk management.

The Fund is diversified on a geographic and industry sector basis, reducing exposure to firm specific risks. However, the Fund's holdings may be more concentrated in certain geographic regions and industry sectors than the Index.

The Fund invests in the following securities:

- publicly traded common stock or common stock equivalents of international companies including preferred shares, installment receipts, convertible securities, rights and warrants,
- exchange traded funds based on the Index or countries/regions within the Index,
- international exchange-listed depository receipts of European and Asian listed companies,
- units in the Managers' pooled funds provided such holdings are permissible investments of the Fund,
- private placements (defined as off-exchange purchase of securities that may have limited transferability) with CIO approval,
- forward contracts for currency conversions and/or currency hedging,
- other derivative instruments with CIO approval, and
- money market securities rated A-1 (low) or better, and units of bcIMC's Pooled Investment Portfolios ST1, ST2 and ST3.

**Financial Risk Management Discussion (continued)
as at February 6, 2013 and December 31, 2012**

The following restrictions apply to the Fund:

- Up to 20% of the Fund's assets over any 3 month period or up to 15% of the Fund's assets over any 12 month period may be invested in money market securities rated A-1(low) or better, or in units of bcIMC's Pooled Investment Portfolios ST1, ST2 and ST3.
- Investments in international emerging markets and investments in the securities of a single company are both limited to 10% of the market value of the Fund.

In 2013 the assets held by the Fund were transferred at fair market value to the Active European Equity Fund, the Active Global Equity Fund and the Indexed Global Equity Fund. The Active EAFE Equity Fund was wound-up on June 6, 2013 (see Note 1).

Note 6 of the financial statements provides information on various types of financial risks associated with investing. The following information pertains specifically to this Fund, and its investments as at February 6, 2013 and December 31, 2012.

Credit Risk

The majority of the Fund's financial assets and liabilities are held in securities that are not subject to credit risk.

Interest Rate Risk

The majority of the Fund's financial assets and liabilities are non-interest bearing, accordingly, the Fund is not subject to significant amounts of risk due to fluctuations in the prevailing market interest rates.

BRITISH COLUMBIA INVESTMENT MANAGEMENT CORPORATION
POOLED INVESTMENT PORTFOLIO

ACTIVE EAFE EQUITY FUND

Financial Risk Management Discussion (continued)
as at February 6, 2013 and December 31, 2012

Currency Risk

As at February 6, 2013 and December 31, 2012, the Fund held foreign denominated net assets, including foreign currency contracts, which resulted in net exposure to the following currencies:

CURRENCY (in 000s)	February 6, 2013			
	Net Investments and Investment- Related Receivables/ (Payables)	Net Foreign Currency Contracts Receivable/ (Payable)	Net Exposure	% of Total Net Assets
Australian Dollar	\$ 26,159	\$ -	\$ 26,159	8.8 %
British Pound Sterling	40,353	(3)	40,350	13.5 %
Euro	83,120	-	83,120	27.8 %
Hong Kong Dollar	19,506	-	19,506	6.5 %
Israeli Ringgit	3,833	-	3,833	1.3 %
Japanese Yen	25,843	-	25,843	8.6 %
Malaysian Ringgit	10,038	-	10,038	3.4 %
Norwegian Krone	2,966	-	2,966	1.0 %
Singapore Dollar	14,477	3	14,480	4.8 %
Swedish Krona	7,811	-	7,811	2.6 %
Swiss Franc	39,575	-	39,575	13.2 %
Taiwan Dollar	8,170	-	8,170	2.7 %
Net Foreign Exchange Exposure	\$ 281,851	\$ -	\$ 281,851	94.3 %

Financial Risk Management Discussion (continued)
as at February 6, 2013 and December 31, 2012

CURRENCY (in 000s)	December 31, 2012			
	Investments and Investment-Related Receivables/ (Payables)	Net Foreign Currency Contracts Receivable/ (Payable)	Net Exposure	% of Total Net Assets
Australian Dollar	\$ 33,214	\$ -	\$ 33,214	6.0 %
British Pound Sterling	100,659	-	100,659	18.3 %
Euro	158,511	-	158,511	28.8 %
Hong Kong Dollar	44,638	-	44,638	8.1 %
Indonesian Rupiah	731	-	731	0.1 %
Israeli Ringgit	3,761	-	3,761	0.7 %
Japanese Yen	66,527	-	66,527	12.1 %
Korean Won	4,963	-	4,963	0.9 %
Malaysian Ringgit	10,526	-	10,526	1.9 %
Norwegian Krone	2,723	-	2,723	0.5 %
Singapore Dollar	14,338	-	14,338	2.6 %
Swedish Krona	9,153	-	9,153	1.7 %
Swiss Franc	68,046	-	68,046	12.4 %
Taiwan Dollar	8,761	-	8,761	1.6 %
United States Dollar	5,944	-	5,944	1.1 %
Net Foreign Exchange Exposure	\$ 532,495	\$ -	\$ 532,495	96.9 %

As at February 6, 2013, if the Canadian dollar had strengthened/weakened by 1 percent in relation to all other currencies, holding all other variables constant, net assets would have decreased/increased by \$2,819,000 (December 31, 2012 - \$5,325,000), representing 0.9% of the Fund's net assets (December 31, 2012 - 1.0%). In practice, the actual trading results may differ from the above sensitivity analysis and the difference could be material.

POOLED INVESTMENT PORTFOLIO

ACTIVE EAFE EQUITY FUND

**Financial Risk Management Discussion (continued)
as at February 6, 2013 and December 31, 2012**

Other Price Risk

Equity by Industry Sector

Industry sectors to which the Fund had exposure as at February 6, 2013 and December 31, 2012 are as follows:

INDUSTRY SECTOR (in 000s)	February 6, 2013		December 31, 2012	
	Total	% of Total	Total	% of Total
Consumer Discretionary	\$ 16,098	5.7 %	\$ 50,658	9.6 %
Consumer Staple	33,623	11.9 %	63,665	12.0 %
Energy	30,314	10.8 %	53,886	10.2 %
Financial Services	21,273	7.6 %	74,618	14.1 %
Health Care	31,293	11.1 %	52,230	9.9 %
Industrial Products	51,115	18.1 %	81,742	15.4 %
Information Technology	27,991	9.9 %	44,816	8.4 %
Materials and Processing	32,080	11.4 %	56,618	10.7 %
Telecommunication Services	23,950	8.5 %	34,583	6.5 %
Utilities	14,114	5.0 %	16,783	3.2 %
Total Equities	\$ 281,851	100.0 %	\$ 529,599	100.0 %

The expected impact on the Net Assets of the Fund, assuming a 10 percent increase/decrease in the Fund's benchmark, would be an increase/decrease of \$28,185,000 (2012 - \$46,605,000), representing 9.4% of the Fund's net assets (2012 - 8.5%). This forecast is estimated based on the risk/return characteristics of the Fund's benchmark and the Fund's actual holdings as at February 6, 2013 and December 31, 2012, and assuming all other variables are held constant. BarraOne, a product of MSCI Barra Inc., is used to forecast the Fund's beta and provide other analytics and data that are used in the preparation of the forecast. Actual trading results may differ from the above sensitivity analysis and the difference could be material.

ACTIVE EAFE EQUITY FUND

**Fair Value Measurement Discussion
as at February 6, 2013 and December 31, 2012**

As described in note 7 of the financial statements, a three-tier hierarchy is used as a framework for disclosing fair value based on inputs used to value the Fund's financial instruments.

The following is a summary of the inputs used to value the Fund's financial instruments as at:

	February 6, 2013		
	Quoted Price in Active Market (Level 1)	Significant Observable Inputs (Level 2)	Total
(in 000s)			
Money Market Investments	\$ -	\$ 987	\$ 987
Public Equities	281,851	-	281,851
Total Investments	<u>\$ 281,851</u>	<u>\$ 987</u>	<u>\$ 282,838</u>

During 2013, there were no significant transfers between Level 1 and Level 2. Significant unobservable inputs (Level 3) were not used to value the Fund's financial instruments as at February 6, 2013

**Fair Value Measurement Discussion (continued)
as at February 6, 2013 and December 31, 2012**

The following is a summary of the inputs used to value the Fund's financial instruments as at:

	December 31, 2012		
	Quoted Price in Active Market (Level 1)	Significant Observable Inputs (Level 2)	Total
(in 000s)			
Money Market Investments	\$ -	\$ 1,021	\$ 1,021
Public Equities	529,596	3	529,599
Total Investments	<u>\$ 529,596</u>	<u>\$ 1,024</u>	<u>\$ 530,620</u>

During 2012, there were no significant transfers between Level 1 and Level 2. Significant other unobservable inputs (Level 3) were not used to value the Fund's financial instruments as at December 31, 2012.

BRITISH COLUMBIA INVESTMENT MANAGEMENT CORPORATION
ACTIVE EAFE EQUITY FUND
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD ENDED FEBRUARY 6, 2013 AND YEAR ENDED DECEMBER 31, 2012

1. The Portfolios

British Columbia Investment Management Corporation (“bcIMC”) was established under the *Public Sector Pension Plans Act* as a trust company authorized to carry on trust business and investment management services. These financial statements have been prepared by bcIMC and are the responsibility of bcIMC management.

Under the *Public Sector Pension Plans Act* and the *Pooled Investment Portfolios Regulation*, B.C. Reg. 447/99, bcIMC may establish and operate pooled investment portfolios "... in which money from trust funds, special funds or other funds, other public money and the money of government bodies and designated institutions may be combined in common for the purpose of investment by means of investment units of participation in a pooled investment portfolio." In addition, pooled investment portfolios (the Funds) previously established under the *Financial Administration Act* and the *Pooled Investment Portfolios Regulation*, B.C. Reg. 84/86, were continued under the *Pooled Investment Portfolios Regulation*, B.C. Reg. 447/99, to be held in trust by bcIMC and invested by the Chief Investment Officer of bcIMC.

The Active EAFE Equity Fund was established on January 2, 1998.

In 2013 the assets held by the Active EAFE Equity Fund were transferred at fair market value to the Active Global Equity Fund and the Indexed Global Equity Funds. The details of the transfers are as follows:

Date of Transfer	Fair Market Value (\$000s)	Units Redeemed
February 7, 2013	293,391	201.961
March 28, 2013	1,800	1.248
April 30, 2013	859	0.553
June 6, 2013	880	0.542
Total	296,930	204.304

On June 6, 2013 all of the outstanding units of the Active EAFE Equity Fund were redeemed, and the remaining net assets were transferred to the Indexed Global Equity Fund.

The financial statements for the Active EAFE Equity Fund have been prepared as at February 6, 2013, immediately prior to the transfer of the last investments to the Indexed Global Equity Fund. The June 6, 2013 transfer represented other assets (excluding investments) and was not considered material.

2. Significant Accounting Policies

a) Basis of Presentation

The financial statements have been prepared in accordance with Canadian generally accepted accounting principles (GAAP).

b) Valuation

Investments and investment-related receivables and liabilities are stated at fair value. Fair value is an estimate of the amount of consideration that would be agreed upon in an arm’s length transaction between knowledgeable, willing parties under no compulsion to act.

BRITISH COLUMBIA INVESTMENT MANAGEMENT CORPORATION
ACTIVE EAFE EQUITY FUND
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD ENDED FEBRUARY 6, 2013 AND YEAR ENDED DECEMBER 31, 2012

2. Significant Accounting Policies (continued)

Fair value is determined as follows:

- (i) Public equities (including exchange traded funds) are valued at bid prices on the valuation date. Securities not traded on that date are valued at the mean price between the latest bid and asked quotations. Securities not listed on any stock exchange, or which are traded over-the-counter, are valued in the same manner based on available public quotes from recognized data suppliers in the securities industry or at the price estimated by the fund manager to be the fair value.

c) Income Recognition

Investment transactions are accounted for on a trade date basis. Dividend income is recognized on the ex-dividend date and interest income on the accrual basis. Income on foreign investments is reported net of withholding tax expense. Commissions, stock exchange fees and other identifiable transaction costs that are directly attributable to the acquisition or disposal of an investment are expensed as incurred. Pursuit costs are charged to operations of the respective Funds in the period incurred.

Gains and losses on the settlement of foreign currency contracts and on the sale of investments are recorded as net realized gains and losses. Gain and losses on the sale of investments are calculated as the difference between the sales proceeds and cost. Translation gains and losses on foreign currency denominated monetary balances are recorded as foreign exchange gains and losses. The year-over-year change in the difference between the fair value and the cost of investments and foreign currency contracts held at year end is recognized as unrealized gains or losses. The cost used for the calculation of realized gains and losses and change in unrealized gains and losses is based on average cost for equities. The amortized cost is the cost of acquisition adjusted by amortization of discounts and premiums on a true constant yield basis over the terms of the investments.

d) Issue and Redemption of Units

Participation in each Fund is expressed in units. The initial value of a unit of a Fund on inception is \$1 million. For each subsequent unit issuance and redemption, the unit value is determined by dividing the fair value of the net assets of the portfolio by the total number of units outstanding. Where one Fund invests in another Fund, the unit issuances and redemptions are transacted on the same basis as client transactions. All unit transactions are recorded on a trade date basis. All of the Funds were open-ended Funds throughout the year where the number of units available for issue was unlimited and the proportion of units issued or redeemed by each client on a particular valuation date depended on changes to their desired asset allocation.

e) Foreign Currency Translation

The financial statements of the Funds are presented in Canadian dollars. Assets, liabilities and commitments in foreign currencies are translated into Canadian dollars at the current exchange rate on the financial statement date. Investment income and expenses, and purchases and sales of investments are translated at the rate prevailing on the respective dates of such transactions. Realized gains (losses) and changes in unrealized gains (losses) include foreign currency translation gains (losses) on investments and foreign currency contracts, which have been footnoted and disclosed in each Statement of Operations and Change in Net Assets.

f) Income Taxes

As the Funds represent assets held by bcIMC, as trustee, and as bcIMC is an agent of the Crown, the Funds, which are trusts, are not subject to tax on income and gains realized from such assets. All income and net capital gains realized by the Funds are distributed or made payable by regulation to unitholders of the Funds prior to the end of each calendar year. Most intermediate holding companies held by Funds are exempt from Canadian income tax under paragraph 149(1)(o.2) of the Income Tax Act (Canada). Taxable intermediate holding companies account for eligible corporate income taxes.

g) Use of Estimates

Financial statements prepared in accordance with Canadian generally accepted accounting principles require management to make certain estimates and assumptions that can affect the reported balances. In determining the fair value of some of its investments, management relies on external managers' estimates and assumptions regarding investment industry performance and prospects, as well as general business and economic conditions that prevail or are expected to prevail. By nature, these asset valuations are subjective and do not necessarily result in precise determinations. Financial results as determined by actual events could differ from those estimates and assumptions, and the difference could be material.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD ENDED FEBRUARY 6, 2013 AND YEAR ENDED DECEMBER 31, 2012

3. Expenses

Third party costs that are attributable to the Fund are charged to its portfolio. Other costs initially borne by bcIMC are recovered from the Fund by bcIMC charging management fees, which are calculated on a cost recovery basis.

4. Units Outstanding

Units issued and outstanding represent the capital of the Fund. The Fund is not permitted to issue debt as part of its capital structure. bcIMC manages the capital of the Fund in accordance with the Fund's investment objectives, including managing liquidity in order to meet redemptions as discussed under liquidity risk in note 7. The Statement of Changes in Net Assets identifies changes in each Fund's capital during the period. The following is a summary of the changes in units outstanding during the period:

	ACTIVE	
	EAFE EQUITY FUND	
	2013	2012
Outstanding, beginning of period	389.481	655.027
Issued for cash	146.151	-
Issued on reinvestment of distributions	-	0.037
Redeemed	(331.328)	(265.546)
Consolidation of units	-	(0.037)
Outstanding, end of period	<u>204.304</u>	<u>389.481</u>

FOR THE PERIOD ENDED FEBRUARY 6, 2013 AND YEAR ENDED DECEMBER 31, 2012

5. Reconciliation of Net Asset Value

The calculation of net assets of the Fund for financial reporting purposes (GAAP NAV) requires investments to be valued using the bid price where securities are traded in an active market. To be consistent with the investment funds industry and the Rules and Policies implemented by the Canadian Securities Administrators, the Fund determines NAV for purposes of transacting purchases and redemptions of units of the Fund (Transactional NAV) based upon either last sale price or the midpoint between bid and asked quotations. Reconciliation between the Transactional NAV and GAAP NAV for the Active EAFE Equity Fund as at February 6, 2013 follows:

Fund	Net Asset Values			Net Asset Values		
	Transactional NAV (\$000s)	Bid Pricing Impact (\$000s)	GAAP NAV (\$000s)	Transactional NAV per Unit (\$000s)	Bid Pricing Impact (\$000s)	GAAP NAV per Unit (\$000s)
Active EAFE Equity Fund	299,218	(267)	298,951	1,465	(2)	1,463

Reconciliations between the Transactional NAV and GAAP NAV as at December 31, 2012 follow:

Fund	Net Asset Values			Net Asset Values		
	Transactional NAV (\$000s)	Bid Pricing Impact (\$000s)	GAAP NAV (\$000s)	Transactional NAV per Unit (\$000s)	Bid Pricing Impact (\$000s)	GAAP NAV per Unit (\$000s)
Active EAFE Equity Fund	550,366	(693)	549,673	1,413	(2)	1,411

6. Financial Risk Management

The Fund has its own investment objectives. The Fund's overall risk management program seeks to minimize the potentially adverse effect of risk on the Fund's financial performance in a manner consistent with the Fund's investment objectives. In the normal course of business, the Fund is exposed to financial risks including credit risk, liquidity risk, and market risk (including interest rate risk, currency risk and other price risk). The level of risk varies depending on the investment objective of the Fund and the type of investments it holds.

a) Credit Risk

Credit risk is the risk that the counterparty to a financial instrument will fail to discharge an obligation or commitment it has entered into, resulting in a financial loss to the Fund. The market value of fixed income instruments and derivatives involves assessing the credit worthiness of the issuer, and represents the maximum credit risk exposure for a Fund. To avoid undue credit risk, the Fund has established specific investment criteria, such as minimum credit ratings for investees and counterparties, and maximum concentrations with given counterparties. All investment transactions are settled or paid upon delivery with approved brokers. The risk of default is considered minimal since the delivery of securities sold is only made after the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade fails if either party fails to meet its obligations. See additional discussion of credit risk in the Financial Risk Management Discussion following the Fund's financial statements.

b) Liquidity Risk

Liquidity risk is the risk that the Fund will be unable to generate sufficient cash in a timely manner or at a reasonable price to meet commitments as they come due. The Fund is exposed to the liquidity risk associated with the requirement to redeem units. Units of the Fund may only be acquired by eligible clients or client groups in accordance with the Fund's purchasing limits that may be established by the Chief Investment Officer (CIO). In order to protect the interest of all clients, the CIO may also establish redemption limits for the Fund. The purchase and redemption limits may vary depending on market circumstances, client demand, and the liquidity of the underlying investments.

c) Interest Rate Risk

Interest rate risk is the risk that the market value or cash flows of interest-bearing investments will fluctuate due to changes in market interest rates. The fund does not hold investments in securities exposed to interest rate risk. See additional discussion of interest rate risk in the Financial Risk Management Discussion following the Fund's financial statements.

d) Currency Risk

Currency risk is the risk that the value of investments denominated in foreign currencies will fluctuate due to changes in foreign exchange rates. The Funds is exposed to currency risk through holding of investments, and investment-related receivables, and liabilities, in various currencies. The Fund may use foreign currency contracts to hedge some foreign currency exposure on investment-related receivables and liabilities, and engage in the buying and selling of currencies through the spot market, forward contracts, equity index futures contracts, and/or options in order to achieve the desired currency exposure. See additional discussion of currency risk in the Financial Risk Management Discussion following the Fund's financial statements.

e) Other Price Risk

Market risk is the risk that the value of an investment will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk). These changes can be caused by factors specific to the individual investments, or class of investment, or by factors affecting all investments. All financial instruments are subject to other price risk and a potential loss of capital. The maximum risk is determined by the market value of the financial instruments, except for options and futures contracts. The Fund may not sell short, borrow securities, or purchase securities on margin, which limits the potential loss of capital. There are established investment criteria for each Fund related to diversification of investments and investment mandates for external managers to avoid undue market risk. See additional discussion of other price risk in the Financial Risk Management Discussion following the Fund's financial statements.

f) Fair Value of Investment-Related Assets and Liabilities

The Fund's investments are carried at fair value. In the opinion of bcIMC, the fair values of the investment-related assets and liabilities approximate their carrying values given their short-term nature.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD ENDED FEBRUARY 6, 2013 AND YEAR ENDED DECEMBER 31, 2012

7. Fair Value Hierarchy

Financial instruments are categorized into a hierarchy based on the inputs used to calculate the financial instrument's fair value. The hierarchy contains three "levels" of fair value inputs as follows:

- Level 1 - Quoted prices in active markets for identical assets or liabilities.
- Level 2 - Inputs other than quoted prices that are observable for the asset or liability (i.e. quoted prices of similar securities, Bank of Canada rates, commercial credit spreads).
- Level 3 - Inputs for the asset or liability that are not based on observable market data (i.e. budgeted or forecast revenue or net income, weighted average cost of capital).

Changes in valuation methods may result in transfers of investments between levels. See additional discussion on the three-tier hierarchy in the Fair Value Measurement Discussion following the Fund's financial statements.
