LSS Executive Compensation Governance Framework

This document discusses the Legal Services Society's ("LSS") Executive Compensation program. It includes information on LSS's compensation governance, compensation philosophy, the processes used in determining compensation and the actual compensation paid to executives during the 2012/2013 fiscal year.

Compensation Governance

LSS's Board of Directors is responsible for reviewing and determining the types and amounts of executive compensation provided to the CEO/Executive Director with oversight provided by the Crown Corporation Employers' Association ("CCEA") and the Public Sector Employers' Council Secretariat ("PSEC"). The Board of Directors is also responsible for reviewing and approving the compensation plan for exempt staff and the executives who report to the CEO/Executive Director.

Compensation Philosophy

Compensation is an important tool used by LSS to attract, motivate and retain executives with the skills, experience and commitment necessary to achieve the organization's mandate, goals and objectives. LSS's compensation philosophy is to provide total compensation equal to the 60th percentile of total compensation provided to comparable positions by relevant comparison organizations. Total compensation includes base salary, bonuses or other incentive plans, perquisites, retirement and other benefits, and all forms of paid time off.

Process For Benchmarking

LSS periodically retains professional compensation consultants to benchmark LSS's Executive Compensation to the market. The process commences with LSS selecting the comparison organizations, with input from the external consultants and the CEO/Executive Director, and Director, Strategic Planning, Policy and Human Resources. The comparison group is comprised of organizations similar to LSS and/or with which LSS competes for executives in the market, including other provincial legal aid organizations, professional regulatory bodies and other BC crown corporations/ agencies. Subsequent to defining the comparison group, the consultants conduct a survey of the total compensation paid by the comparison organizations to positions comparable to those at LSS, analyze the results and report to LSS.

Components of Compensation

The individual components of compensation are discussed below.

Salary Ranges

External equity or market competitiveness is achieved by using the benchmarking results to develop salary ranges covering all exempt LSS positions. Internal equity is maintained by ensuring that the salary ranges are consistent with the relative internal value of each LSS position. Internal values are determined by an ongoing analysis of the responsibilities and accountabilities of positions using LSS's job evaluation program, which is administered by the Executive Compensation Committee. The Executive Management

LSS Executive Compensation Governance Framework

Committee positions are evaluated externally by independent compensation consultants using the same job evaluation program.

Progression by an incumbent within his or her respective salary range is determined by the individual's increasing levels of competencies coupled with his or her performance in achieving performance plan priorities.

Annual Incentive Plan

The CEO/Executive Director is eligible for an annual incentive payment. The amount of the incentive award is determined by the Board of Directors based on an assessment of the CEO/Executive Director's achievement of the performance objectives established for him at the beginning of the year.

Other executives and exempt staff are eligible to receive incentive awards, assuming funds are available. When funds are available, incentive amounts are awarded to executives and exempt staff by the CEO/Executive Director. The amount of such awards is based on the executive's performance, achievement of Corporate, Divisional and Service Plan responsibilities, and priorities as well as his or her overall contribution to LSS.

A new policy on Crown Corporation Executive Compensation was issued on July 25, 2012, containing guidelines for annual incentive/bonus plans. This policy requires that crown corporations/agencies with annual incentive/bonus plans for executives move towards replacing such plans with salary holdback arrangements. In addition, the policy requires that the amount of any salary holdback awarded to executives not be considered as earnings for pension purposes.

LSS will be replacing its existing annual incentive plan with a salary holdback arrangement which is consistent with the new Government policy. When funds are available, executives will be eligible for salary holdback awards determined in accordance with the performance criteria discussed above.

Executive Perquisites & Employee Benefits

All LSS executives are provided with the similar employee benefits available to all other employees of LSS. The benefits are comprised of standard public sector entitlements, including medical, dental, life and accident insurance, short-term and long-term disability coverage, extended health benefits and a dental plan.

The CEO/Executive Director also receives a car allowance and paid parking, while the remaining executives receive paid parking.

Retirement Plans

The CEO Executive Director is provided with a defined contribution retirement arrangement, whereby LSS contributes to his RRSP an amount equal to what LSS would contribute on his behalf if he were a member of the Municipal Pension Plan. The remaining LSS executives are members of the Municipal Pension Plan.
