## Message from the Premier and Accountability Statement

I am pleased to present the Service Plan for the Office of the Premier for the period April 1, 2005 to March 31, 2008. This plan is presented in accordance with Section 13 of the *Budget Transparency and Accountability Act*.

This Service Plan is the key document for the strategic management and achievement of the goals and objectives of the Office of the Premier.

As a rolling three-year plan, this document reflects and builds upon the Office of the Premier's efforts in 2004/05.

Since June 2001, we have seen a remarkable change in our province, our economy, and our communities. As I have travelled across the province over the past year, British Columbians have shared with me their renewed spirit of optimism about their futures and the opportunities opening up for them and their families. New jobs are opening up every day in strengthening tourism, forestry, energy and mining industries. People are moving back to our great province again. And British Columbia is expected to be a leader in job creation this year.

That progress is a tribute to the dedication and hard work of British Columbians, B.C.'s public servants, and our government. Since our government took office, we have completed or begun work on 97 per cent of our *New Era* commitments. We have increased funding for education and health care, while balancing the budget and cutting taxes to encourage economic growth.

In the coming year, the Office of the Premier will continue working with our partners across government and innovative people across the province to unleash their vision and ideas for how we can build on the progress we have made. This Service Plan will guide our actions and keep British Columbians informed as we work towards our shared goals of hope, prosperity and opportunity.

The 2005/06–2007/08 Office of the Premier Service Plan was prepared under my direction in accordance with the *Budget Transparency and Accountability Act*. I am accountable for the basis on which the plan has been prepared. All material fiscal assumptions and policy decisions as of January 31, 2005, have been considered in preparing the plan, and I am accountable for achieving the specific objectives in the plan.

## Message from the Minister of State for Intergovernmental Relations and Accountability Statement

British Columbians want their provincial and federal governments to work together on their behalf. British Columbia's approach in dealing with the federal government is to advance our interests in a constructive, co-operative manner to maximize benefits to British Columbians. We call it the Canada-British Columbia Partnership.

Results from this strengthened cooperation include: \$5.4 billion in new federal health funding over the next 10 years, \$300 million for the 2010 Olympic and Paralympic Winter Games, \$450 million for the Canada Line Richmond-Airport-Vancouver rapid transit project, \$225 million for highway and border infrastructure, \$100 million for the firestorm disaster, \$55 million for softwood-dependent communities, and \$28 million to preserve Burns Bog.

In 2005-06, work will continue toward meeting a broad range of provincial priorities including achieving a durable resolution of the softwood lumber dispute, advancing offshore oil and gas development, high tech cluster development and improved fisheries management. The BC Government will work with the Council of the Federation and the Government of Canada to advance development of a National Pharmacare Strategy and promote regulatory harmonization.

I am the Minister of State for Intergovernmental Relations, and under the *Balanced Budget and Ministerial Accountability Act*, I am accountable for achieving the following results for 2005/06:

- Promote an equitable distribution of federal spending and benefits for British Columbia by working with other ministries to present proposals to the Government of Canada for federal funding under existing or new national programs and/or policy changes. Proposals will be presented to the Government of Canada in the following areas: 2010 Olympic and Paralympic Winter Games, Pacific Gateway Investments and regulatory improvements in transportation, Life Sciences, and Infrastructure. The Secretary to Cabinet shall confirm that such proposals were presented.
- Develop and present to Cabinet proposals for additional cooperation under the Protocol of Cooperation between British Columbia and Alberta.
