

1.0 Introduction

Welcome to the British Columbia Food Processors Directory, 2001-2002. This is a listing of food processors operating in the province of British Columbia as well as some suppliers, related associations and government organizations. There is no charge for being listed in the directory.

We thank all the processing companies that were contacted over the summer and fall of 2001 for their participation in updating this directory.

Companies are listed according to the type of products they manufacture, as may be seen in the Table of Contents. A section listing some of the microprocessors in the Lower Mainland, Northern BC and the Interior can be found in Chapter 17.

While every effort has been made to ensure the accuracy of the information, we can not guarantee that all the entries are complete.

Should you wish to amend your company's entry or suggest the inclusion of other organizations, please contact the Food Industry Branch by using the phone, fax or email information provided below.

A faxable form with the basic company data can be found at the end of the directory should you wish to submit your company data for inclusion in the directory.
