1. Executive Summary

The position of **British Columbia Ferries Commissioner** was created in April 2003 by the *Coastal Ferry Act* (the “Act”). The current commissioner was appointed in May 2011 with his term due to expire on April 30, 2017. The current deputy commissioner was reappointed in June 2014 and his term is due to expire on June 30, 2020. Their office is known as the BC Ferries Commissioner (the “Commission”).

*Service Plan and Budget for
FY 2018*

This Service Plan and Budget for the next fiscal year ending on March 31, 2018 (“FY 2018”) describes the anticipated activities of the Commission in order to meet its mandate of regulating ferry operators, making certain special decisions, conducting performance reviews and carrying out public outreach and administrative responsibilities.

Total expenditures for FY 2018 are budgeted at \$735,000 which is **66%** of the maximum permitted for the Commission's budget under s.59(2) of *Coastal Ferry Act*¹.

Activity is budgeted for three applications for approval of a major capital expenditure and two performance reviews. No activity is budgeted for the setting of price caps for the next performance term as this process does not commence until FY 2019.

¹ Section 59(2) limits the budget to one-fifth of one percent of the previous year's tariff revenue. Tariff revenue for FY 2016 was \$561 million setting a maximum budget of \$1,122,000.

2. Role of the Commission

**Regulatory Principles
for the BC Ferries Commissioner**
under s. 38 of the *Coastal Ferry Act*

- (a) the primary role of the commissioner is to balance, in the manner the commissioner considers appropriate, the interests of ferry users, taxpayers and the financial sustainability of ferry operators;
- (b) ferry operators are to be encouraged to adopt a commercial approach to ferry service delivery;
- (c) ferry operators are to be encouraged to seek additional or alternative service providers on designated ferry routes through fair and open competitive processes;
- (d) ferry operators are to be encouraged to be innovative and to minimize expenses without adversely affecting their safe compliance with core ferry services.

The **BC Ferries Commissioner** is a quasi-judicial regulatory agency operating under the *Coastal Ferry Act* of the Province of British Columbia. While discharging its responsibilities, the Commission is required to bear in mind a set of four principles (see box to the left).

British Columbia Ferry Services Inc. (“BC Ferries”) was created in April 2003 as an independent company from the former BC Ferry Corporation, which was a Crown corporation. The sole shareholder of BC Ferries is the B.C. Ferry Authority.

Under a long-term contract (the “Coastal Ferry Services Contract” or “CFSC”) with the Province of British Columbia, BC Ferries must provide ferry services with defined minimum “core” service levels on each of the 24 regulated saltwater routes. Under the current CFSC, BC Ferries receives a “ferry transportation fee” per round-trip sailing on 20 designated routes. The four remaining routes, referred to as major routes, are regarded as financially self-sufficient and ferry transportation fees do not apply.

BC Ferries currently holds a virtual monopoly position in most of the transportation markets it serves. Given the lack of effective competition, a major role of the Commission is to set a ceiling or “price cap” on the weighted average level of fares which BC Ferries can charge. The goal in setting the price cap is to balance the interests of ferry users with the interests of taxpayers while protecting the financial sustainability of the ferry operator. Price cap increases are determined every four years for the next four year performance term.

Other key tasks of the commissioner include monitoring BC Ferries’ adherence to the terms of the CFSC, approving major capital expenditures, regulating unfair competitive advantage, conducting performance reviews and monitoring of BC Ferries’ customer complaints process. It is worth noting that the commissioner serves as neither ombudsman nor a complaints bureau. Further, the commissioner is not responsible for regulating safety or environmental aspects of ferry operations.

3. Service Plan and Budget

Table 1: Budget for Fiscal Year Ending March 31, 2018	
Regulatory Review & Decisions	\$279,500
Inspections and Performance Reviews	124,500
Publication and Outreach	132,000
Legal and Administration Services	163,750
Contingency	35,250
Total Expenditures	\$735,000

Regulatory Reviews and Decisions reflects the ongoing quarterly monitoring and enforcement of price cap compliance as well as Special Decisions involving approval of major capital expenditures during FY 2018. Three applications for major capital expenditure approvals are anticipated. For FY 2018 the budget excludes any activity associated with the price cap review process leading to the determination of the price caps for the fifth performance term which runs from April 1, 2020 to March 31, 2024. That process does not commence until FY 2019.

Inspections and Performance Reviews reflects provisions for performance reviews. Two such reviews are anticipated in FY 2018.

Publication and Outreach reflects the activity associated with correspondence with the public and the effort required to maintain the Commission's website as the main vehicle of publication and outreach.

Legal and Administration Services includes a provision for office and support services provided by the Ministry of Justice, records management services and the preparation of the Commission's Annual Report and the Annual Service Plan & Budget. This category also includes an amount for general legal services and opinions provided to the commissioner as required in carrying out his responsibilities under the *Coastal Ferry Act*.
