

# **BRITISH COLUMBIA ENVIRONMENTAL LABORATORY MANUAL**

**For the Analysis of Water, Wastewater,  
Sediment, Biological Materials and  
Discrete Ambient Air Samples**

**2003 Edition**

Prepared and published by:

**Water & Air Monitoring and Reporting Section  
Water, Air and Climate Change Branch  
Ministry of Water, Land and Air Protection  
Province of British Columbia**

with the assistance of

**The British Columbia Quality Assurance Users Committee and the Technical  
Subcommittee**

# PREFACE

## Stakeholder Representation

This manual was prepared in cooperation with stakeholders as represented by the British Columbia Laboratory Quality Assurance Advisory Committee and by the Technical Subcommittee.

## The British Columbia Laboratory Quality Assurance Advisory Committee

Abby Anderson, Canadian Environment Industry Association – BC Chapter  
Scott Hannam, ALS Environmental, for Canadian Council of Independent Laboratories  
Ralph Drew, Canadian Fishing Company, for Fisheries Council  
Steve Horvath, Water, Air & Climate Change Branch for Ministry of Water, Land and Air Protection  
Bob Jones, GVRD, for the BC Union of Municipalities  
Richard Jornitz, CanTest Ltd., for the BC Water and Waste Water Association  
Denys Leclerc, PAPRICAN, for the Pulp and Paper Producers  
Chris Pharo, Pacific Environmental Science Centre, for Environment Canada  
Bob Smart, Methanex Corp., for the Canadian Producers Association and the BC Mining Association

## Acknowledgements

The Ministry of Water, Land and Air Protection, and the British Columbia Laboratory Quality Assurance Advisory Committee, wish to acknowledge the assistance provided the many individuals who gave of their time, effort, and expertise and without whose assistance this manual could not have been produced.

## Recommended Citation

Horvath, S. (editor). 2003. British Columbia Environmental Laboratory Manual. Water and Air Monitoring and Reporting, Water, Air and Climate Change Branch, Ministry of Water, Land and Air Protection, Victoria, BC, Canada.

## Superseded Documents

The British Columbia Environmental Laboratory Manual replaces and supersedes, in whole or in part, the following manuals previously published by the Ministry of Environment, Lands and Parks:  
British Columbia Environmental Laboratory Manual, Supplement #2 to the 1994 Edition: Analysis of Discrete Ambient Air Samples, 1998  
British Columbia Environmental Laboratory Manual for the Analysis of Water, Wastewater, Sediments and Biological Materials, Supplement #1 to the 1994 Edition  
British Columbia Environmental Laboratory Manual for the Analysis of Water, Wastewater, Sediments and Biological Materials 1994 Edition

## Notice of Copyright

All accompanying written materials of this Manual are protected by copyright laws and international treaty. Copyright in the information content of the Manual belongs to Her Majesty the Queen in right of the Province of British Columbia (the "Province").

This manual has been officially approved by the Director of Water, Air and Climate Change Branch. It may be cited in Waste Management permits, approvals and orders, as well as legislated requirements.

## Canadian Cataloguing in Publication Data

Main entry under title:

British Columbia Environmental Laboratory Manual: for the analysis of water, wastewater, sediments, biological materials and discrete ambient air samples. 2003

Prepared in cooperation with the British Columbia Laboratory Quality Assurance Advisory Committee and the Technical Subcommittee. Cf. Preface.

ISBN

1. Water - Analysis - Laboratory manuals. 2. Sewage - Analysis - Laboratory manuals. 3. Suspended sediments - Analysis - Laboratory manuals. 4. Biological specimens - Analysis - Laboratory manuals. 5. Chemistry, Analytic - Laboratory manuals. I. BC Environment. Laboratory Services. II. British Columbia Quality Assurance Users Committee. III. McQuaker, N. R., 1943-. A laboratory manual for the chemical analysis of waters, wastewaters, sediments and biological materials. IV. Title: Laboratory manual for the chemical analysis of waters, wastewaters, sediments and biological materials.
