## Acknowledgments

The 2006 Travel Activities and Motivations Survey (TAMS), was a comprehensive survey of North American households designed to examine the recreational activities and travel habits and behaviours of Americans and Canadians over the past two-year period.

The survey was conducted in Canada and the United States between January 2006 and June 2006. Only adults (18 years and over) were recruited to complete the survey. The reference period for the data is 2004 and 2005.

TAMS was a partnership of the following organizations:

The Ontario Ministry of Tourism	The Quebec Ministry of Tourism
The Ontario Tourism Marketing Partnership	Tourism Manitoba
The Canadian Tourism Commission	Tourism Saskatchewan
The Atlantic Canada Opportunities Agency	Alberta Economic Development
The Department of Canadian Heritage	Tourism British Columbia <sup>1</sup>
Parks Canada	The Government of Yukon
Statistics Canada	The Government of Northwest Territories

Alex Athanassakos of the Ontario Ministry of Tourism served as the project manager for the TAMS partnership.

Tourism British Columbia would like to acknowledge Lang Research Inc for their work in preparing this report on behalf of TAMS Partnership.

---

<sup>1</sup> Tourism British Columbia's participation was supported financially by the Ministry of Tourism, Culture and the Arts.

## Executive Summary

Over the last two years, 17.7% (4,389,525) of adult Canadians participated in a wine, beer or food tasting while on an out-of-town, overnight trip of one or more nights. A tasting at a winery (12.4%) was most popular followed by a visit to a food processing plant (4.8%), a tasting at a brewery (4.5%) and a cooking or wine tasting course (2.7%). Participating in wine, beer or food tastings while on trips was the seventh most frequent culture and entertainment activity type undertaken by Canadian Pleasure Travellers in the past two years. However, this activity is usually not the main reason for travel as only 17.7% (776,895) reported that tastings were the main reason for taking at least one trip.

Those who participated in tastings are over-represented among those 55 to 64, and especially mature couples. This affluent activity segment is the sixth most likely to have a university degree (40.9%) and has the third highest average household income (\$81,964). They are over-represented in British Columbia, Quebec and Ontario.

Those who participated in a wine, beer or food tasting are more frequent long-haul travellers than most of the other twenty-one culture and entertainment activity types. They were the seventh most likely to have visited the United States (64.0%), the sixth most likely to have visited Mexico (17.6%), the sixth most likely to have taken a trip to the Caribbean (21.6%) and the third most likely to have travelled overseas (36.6%) in the past two years. However, their regional domestic travel is generally average as they were only the eleventh most likely to have taken a trip within their own province or region (90.5%) and the thirteenth most likely to have travelled to an adjacent province or region (56.2%). They were, however, the fifth most likely to have visited a non-adjacent province or region (42.8%).

Relative to the average Canadian Pleasure Traveller, those who participated in tastings while on trips were considerably active in cultural activities (e.g., high art performances, live theatre) and educational-experiential activities (e.g., participatory historical activities, science and technology exhibits). They were also quite active in outdoor activities including resort-based, water activities (e.g., sailing and surfing, fresh water scuba diving and snorkeling), sports (e.g., golf) and skiing (downhill skiing, cross-country skiing). They tend to stay at resorts and other accommodation that specializes in fine cuisine. They prefer vacations that offer novelty, intellectual stimulation and learning opportunities.

Those who participated in wine, beer and food tastings are among the heaviest users of the Internet to plan (73.7%) and book (51.8%) travel. They are also avid consumers of travel-related media. In addition to these channels, this segment may be effectively reached through lifestyle media (e.g., cooking shows, city lifestyle magazines), business, finance and investing magazines and news and current events programming.

### **Travel Activity and Motivation Survey (TAMS)**

The TAMS survey examines the recreational activities and travel habits of Canadians and Americans. The survey examines out-of-town, overnight travel behaviour of one or more nights over the past two years and provides detailed information on Travellers' activities, travel motivators, places visited, type of accommodation used, impressions of Canada, its provinces and territories, demographics and media consumption patterns.

TAMS represents a comprehensive assessment of travel behaviour and motivators and provides a rich and authoritative database by which to develop marketing strategies and travel products to attract visitors to Canada. In particular, TAMS was designed to:

- Identify existing and potential tourism markets;
- Measure the likelihood of these tourism markets being attracted to vacation experiences in Canada;
- Create packaging opportunities for each of these markets;
- Determine how to reach these markets (i.e., in terms of media strategies); and
- Provide information on how to fine-tune and target existing marketing campaigns.

TAMS was sponsored by the following organizations:

Ontario Ministry of Tourism	Quebec Ministry of Tourism
Ontario Tourism Marketing Partnership Corporation	Travel Manitoba
Canadian Tourism Commission	Tourism Saskatchewan
Atlantic Canada Tourism Partnership	Parks Canada Agency
Department of Canadian Heritage	Tourism British Columbia
Alberta Tourism, Parks, Recreation and Culture	Government of Yukon
Government of Northwest Territories	Statistics Canada

The survey was conducted in Canada and the United States between January 2006 and June 2006 and it includes only adults (18 years and over). The reference period for the data is 2004 and 2005.

The Canadian database is used in this current report. This survey was conducted by Statistics Canada. 31,699 completed questionnaires were returned. The data have been weighted to project the results to the Canadian population.

This report profiles persons who participated in wine, beer or food tastings while on a trip and compares them with other Canadian Pleasure Travellers (i.e., those who took at least one pleasure trip or vacation in the last two years). This report is part of a series of 44 Activity Reports prepared using the Canadian TAMS database.

## Wine, Beer & Food Tastings While on Trips

### Market Incidence

Over the last two years, 17.7% of adult Canadians (4,389,525) participated in a wine, beer or food tasting while on an out-of-town, overnight trip of one or more nights. A day visit and tasting at a winery (12.4%) was the most common tasting experience on a trip. A visit to a food processing plant such as a cheese factory (4.8%) was the next most common activity followed by a day visit and tasting at a brewery (4.5%) and a cooking or wine tasting course (2.7%). Participating in wine, beer or food tastings while on trips was the seventh most frequent culture and entertainment activity type undertaken by Canadian Pleasure Travellers in the past two years.

Participating in a wine, beer or food tasting was typically not the main reason for travel. In fact, only 17.7% (776,895) reported that this activity was the main reason for taking at least one trip in the past two years (the 20<sup>th</sup> most frequent reason for travel of the twenty-one culture and entertainment activity types). Taking a cooking or wine tasting course was more likely than other tasting activities to be cited as the main reason for taking at least one trip in the last two years.

Fig. 1 Incidence of Wine, Beer & Food Tastings While on Trips<sup>1</sup>

Size of Market	Number Who Participated in Tastings <sup>2</sup>	Percent Main Reason for Trip <sup>3</sup>	Percent of Pleasure Travellers <sup>4</sup>	Percent of Total Canadian Population <sup>5</sup>
Wine, Beer & Food Tastings (All Activities)	4,389,525	17.7%	23.8%	17.7%
Went to a winery for a day visit/tasting	3,080,835	17.4%	16.7%	12.4%
Went to a brewery for a day visit/tasting	1,125,537	10.5%	6.1%	4.5%
Visit food processing plant (e.g., cheese factory)	1,197,218	11.9%	6.5%	4.8%
Took a cooking or wine tasting course	666,331	22.0%	3.6%	2.7%
Participated in all four activities	81,314	3.3%	0.4%	0.3%

- 1 - "Trips" are defined as out-of-town trips for any purpose involving an overnight stay of one or more nights. Trips NOT involving overnight stays are NOT examined in this report.
- 2 - Defined as individuals who participated in a wine, beer or food tasting while on an out-of-town, overnight trip of one or more nights during the past two years and who took at least one out-of-town pleasure trip of one or more nights during the past two years. This column reports the number of individuals who participated in the activity on at least one trip during the last two years.
- 3 - This column reports the percent who participated in each activity who stated that the activity was the main reason for taking at least one trip during the past two years.
- 4 - "Pleasure Travellers" are defined as individuals who have taken at least one out-of-town pleasure trip of one or more nights in the last two years. This column reports the percent of Pleasure Travellers who participated in each activity on at least one trip during the last two years.
- 5 - This column reports the percent of the Total Canadian Adult Market who participated in each activity on a trip during the past two years.

### Incidence by Region

Those who participated in wine, beer and food tastings while on trips are over-represented among Canadian Pleasure Travellers living in British Columbia, Quebec and Ontario. They are least likely to live in Manitoba and Saskatchewan.

Fig. 2 Geographic Distribution of Those Who Participated in Wine, Beer & Food Tastings While on Trips

	Total Population	Estimated Number Who Participated in Tastings on a Trip	Percent of Pleasure Travellers in Region Who Participated in Tastings on a Trip	Percent of Total Regional Population Who Participated in Tastings on a Trip
Canada	24,776,103	4,389,525	23.8%	17.7%
Atlantic Provinces	1,822,494	229,329	18.1%	12.6%
Quebec	5,940,869	1,094,244	26.1%	18.4%
Ontario	9,671,592	1,720,378	24.0%	17.8%
Manitoba	843,107	77,577	13.0%	9.2%
Saskatchewan	706,325	76,110	14.1%	10.8%
Alberta	2,465,540	422,251	21.1%	17.1%
British Columbia	3,326,176	769,636	28.9%	23.1%

### Demographic Profile

Those who participated in tastings are over-represented among those 55 to 64, and especially affluent mature couples. They are the third oldest of the twenty-one culture and entertainment activity segments, predominantly married and less likely to have dependent children (less than 18) living at home. This affluent activity segment are the sixth most likely to have a university degree (40.9%) and have the third highest average household income (\$81,964) of the twenty-one culture and entertainment activity types.

Fig. 3 Demographic Profile of Those Who Participated in Wine, Beer & Food Tastings on Trips Relative to All Canadian Pleasure Travellers

Attribute	Size of Market	Participated in Tastings	Did Not Participate in Tastings <sup>1</sup>	Pleasure Travellers	Index <sup>2</sup>
		4,389,525	14,049,984	18,439,508	100

	Not stated	11.0%	13.6%	13.0%	84
Average Household Income		\$81,964	\$69,888	\$72,829	N/A

- 1 - "Did Not Participate in Tastings" are defined as individuals who took at least one out-of-town, pleasure trip of one or more nights in the last two years but did not participate in a wine, beer or food tasting on any trip. The number participating and not participating equals the number of Pleasure Travellers.
- 2 - The "Index" is calculated by dividing the percent for Participated in Tastings in each group by the percent of Pleasure Travellers in each group. The Index indicates the extent to which Participated in Tastings are over or under-represented relative to the average Pleasure Traveller. An index of 100 means the percent participating in the activity is the same as that of the average Canadian Pleasure Traveller. Index values over 100 indicate that those participating in the activity are over-represented relative to the average Canadian Pleasure Traveller. Index values less than 100 indicate that those participating in the activity are under-represented relative to the average Canadian Pleasure Traveller.

### Travel Activity (During Last Two Years)

Those who participated in a wine, beer or food tasting are more frequent long-haul travellers than most of the other twenty-one culture and entertainment activity types. They were the seventh most likely to have visited the United States (64.0%), the sixth most likely to have visited Mexico (17.6%), the sixth most likely to have taken a trip to the Caribbean (21.6%) and the third most likely to have travelled overseas (36.6%) in the last two years.

However, their regional domestic travel is only average. They were only the eleventh most likely to have taken a trip within their own province or region (90.5%) and the thirteenth most likely to have travelled to an adjacent province or region (56.2%). However, they were the fifth most likely to have visited a non-adjacent province or region (42.8%) in the last two years. Ontario (62.1%), Quebec (48.6%) and British Columbia (41.1%) were the most common destinations.

Fig. 4 Percent Travelling Within Canada and to Other Destinations during Past Two Years

	Participated in Tastings	Did Not Participate in Tastings	Pleasure Travellers	Index
Size of Market	4,389,525	14,049,984	18,439,508	100
Canada	97.1%	94.0%	94.8%	102
Took a trip within own province / region	90.5%	84.4%	85.9%	105
Took a trip to an adjacent province / region	56.2%	46.2%	48.6%	116
Took a trip to non-adjacent province / region	42.8%	27.9%	31.4%	136
Newfoundland and Labrador	5.3%	4.0%	4.3%	123
Prince Edward Island	10.9%	6.0%	7.2%	152
New Brunswick	16.3%	10.4%	11.8%	138
Nova Scotia	17.2%	11.3%	12.7%	136
Quebec	48.6%	35.9%	38.9%	125
Ontario	62.1%	50.8%	53.5%	116
Manitoba	10.2%	8.8%	9.2%	112
Saskatchewan	12.4%	11.1%	11.4%	109
Alberta	29.3%	24.8%	25.8%	114
British Columbia	41.1%	27.4%	30.6%	134
Yukon	1.8%	0.8%	1.0%	178
Northwest Territories	0.9%	0.6%	0.7%	143
Nunavut	0.4%	0.3%	0.3%	138
United States	64.0%	46.5%	50.7%	126
Mexico	17.6%	10.7%	12.4%	142
Caribbean	21.6%	13.7%	15.6%	138
All other destinations	36.6%	19.6%	23.6%	155

**Appeal of Selected U.S. States, Canadian Provinces and Canadian Territories**

The respondents were asked to rate the appeal of each of Canada's provinces and territories on a ten-point appeal scale where "10" is "Very Appealing" and "1" is "Very Unappealing". They were also asked to rate selected U.S. states (New York State, Colorado, Florida, California, Hawaii and Arizona) to provide a frame of reference.

Those who participated in tastings had a more favourable impression of most Canadian destinations than did other Canadian Pleasure Travellers (e.g., British Columbia, Ontario, Quebec, Atlantic Provinces). British Columbia (8.8) was rated as the most appealing destination.

This activity segment also had a more favourable impression of many of the U.S. reference states than others, and especially New York State, Colorado, Arizona and California. Hawaii (8.2) received the highest ratings from this segment.

Fig. 5 Overall Appeal Ratings of Provinces, Territories and Selected U.S. States on a 10-Point Appeal Rating Scale (Higher Scores=More Appealing)

### Other Culture and Entertainment Activities Pursued While on Trips

Travellers who participated in wine, beer and food tastings were very active in culture and entertainment pursuits while on trips. They frequently went shopping and dining, visited historical sites, museums and art galleries and visited fairs and festivals while on trips. Relative to the average Canadian Pleasure Traveller, they were especially likely to have attended live art performances (e.g., high art performances, comedy festivals and clubs, live theatre, musical concerts) and literary and film festivals. They were also more likely to have taken part in participatory, educational activities (e.g., participatory historical activities, aboriginal cultural experiences) and to have visited educational attractions (e.g., science and technology exhibits, garden theme attractions). In terms of entertainment activities, this segment was also more likely than others to have visited casinos, spas and sporting events while on trips.

Fig. 6 Other Culture and Entertainment Activities Pursued While on Trips  
(See Appendix One for a Definition of Each Type of Culture & Entertainment Activity)

	Participated in Tastings	Did Not Participate in Tastings	Pleasure Travellers	Index
Size of Market	4,389,525	14,049,984	18,439,508	100
Shopping & Dining	96.2%	78.7%	82.9%	116
Historical Sites, Museums & Art Galleries	80.2%	51.5%	58.3%	137

Literary & Film Festivals	6.0%	1.5%	2.6%	233
National & International Sporting Events	6.0%	2.3%	3.2%	187

### Culture and Entertainment Activities Pursued in a Typical Year

Travellers who participated in wine, beer and food tastings are also highly active in culture and entertainment activities while not travelling. The majority dine in local restaurants, visit local festivals and fairs and visit local historical sites or heritage buildings. Relative to the average Canadian Pleasure Traveller, this activity segment is especially likely to attend local live art performances (e.g., live theatre, classical music concerts, jazz clubs, ballet and opera), visit educational attractions (e.g., museums, art galleries or shows, botanical gardens) and visit local day spas.

Fig. 7 Culture and Entertainment Activities Pursued in a Typical Year

	Participated in Tastings	Did Not Participate in Tastings	Pleasure Travellers	Index
Size of Market	4,389,525	14,049,984	18,439,508	100
Going out to eat in restaurants	96.0%	90.1%	91.5%	105
Going to festivals or fairs	70.9%	58.5%	61.4%	115
Going to historic sites or heritage buildings	52.9%	35.1%	39.3%	135
Going to pick-your-own farms or farmers' market	49.8%	38.2%	41.0%	121
Going to live theatre	48.7%	30.5%	34.8%	140
Going to museums	47.2%	28.2%	32.7%	144
Going to art galleries or art shows	47.2%	27.0%	31.8%	149
Going to amateur sporting events	45.1%	41.0%	42.0%	107

Going to rock music concerts	25.7%	21.4%	22.4%	115
Going to day spas	22.1%	11.2%	13.8%	161
Going to gamble in casinos	20.4%	17.4%	18.1%	112
Staying overnight in a hotel or B&B in own city	13.1%	8.9%	9.9%	132
Going to jazz clubs	13.1%	5.8%	7.5%	173
Going to the opera	12.0%	4.9%	6.6%	182
Going to the ballet	11.9%	5.8%	7.3%	163
Going to rodeos	7.9%	7.2%	7.3%	107

### Outdoor Activities Pursued While on Trips

Travellers who participated in wine, beer and food tastings were also highly active in outdoor activities while on trips. The majority enjoyed ocean activities (e.g., sunbathing, swimming in ocean) and went wildlife viewing while travelling. However, relative to the average Canadian Pleasure Traveller, this segment was especially likely to have participated in resort-based, water activities (e.g., sailing and surfing, freshwater scuba diving and snorkeling), skiing (e.g., downhill skiing, cross country skiing) and fitness activities (e.g., cycling, exercising and jogging). They also were more likely than others to have played sports (e.g., golfing, tennis) and gone hiking, climbing and paddling while on trips. Hunting was the only outdoor trip activity in which this segment's participation rate was below-average.

Fig. 8 Outdoor Activities Pursued While on Trips  
(See Appendix Two for a Definition of Each Type of Outdoor Activity)

	Participated in Tastings	Did Not Participate in Tastings	Pleasure Travellers	Index
Size of Market	4,389,525	14,049,984	18,439,508	100

Horseback Riding	7.6%	4.1%	4.9%	155
Freshwater Scuba & Snorkeling	5.3%	2.3%	3.0%	175
Wilderness Activities (e.g., wilderness skills course)	4.8%	1.6%	2.4%	201
Hunting	4.3%	4.8%	4.7%	91
Motorcycling	3.8%	2.7%	3.0%	127
Extreme Air Sports (e.g., parachuting)	2.6%	0.7%	1.1%	227

### Outdoor Activities Pursued in a Typical Year

Travellers who participated in wine, beer and food tastings are somewhat more active in outdoor activities than the average Canadian Pleasure Traveller while not travelling. The majority go on day outings to parks and picnicking, swim, hike, cycle, exercise and garden at home while not on trips. Relative to the average Canadian Pleasure Traveller they are especially likely to go skiing (e.g., downhill skiing, cross-country skiing), canoeing and kayaking, sailing and other boating and to play golf and racquet sports. On the other hand, they are less likely than others to go ATVing, snowmobiling and hunting.

Fig. 9 Outdoor Activities Pursued in a Typical Year

	Participated in Tastings	Did Not Participate in Tastings	Pleasure Travellers	Index
Size of Market	4,389,525	14,049,984	18,439,508	100
Day outing to a park	73.7%	64.7%	66.9%	110
Exercising at home or at a fitness club	66.9%	59.1%	61.0%	110
Gardening	66.6%	57.6%	59.8%	111

### Accommodation Stayed In While on a Trip

Those who participated in wine, beer and food tastings while on trips were most likely to have stayed in resorts (lakeside or riverside resorts, seaside resorts, ski and mountain resorts) in the last two years. However they were also more likely than others to have stayed in a public or private campground. Relative to the average Canadian Pleasure Traveller, this activity segment was especially likely to have stayed in accommodation that specialized in fine cuisine including an inn or resort with a gourmet restaurant, a cooking school and a wine tasting school.

### Tours and Cruises Taken During Past Two Years

Travellers who participated in wine, beer and food tastings frequently took tours and cruises during the past two years. Sameday tours (both guided and self-guided), scenic countryside drives and city tours were the most common types of tours taken. However, this segment was three to four times more likely than average to have taken a tour of a winery or a factory (where they most likely participated in a tasting). They were also more likely than others to have taken self-guided and guided multi-location tours, wilderness tours and air tours in an airplane or helicopter. This segment was also more likely than others to have taken both ocean cruises (e.g., Alaskan cruise), and freshwater cruises (e.g., St. Lawrence River cruise) in the last two years.

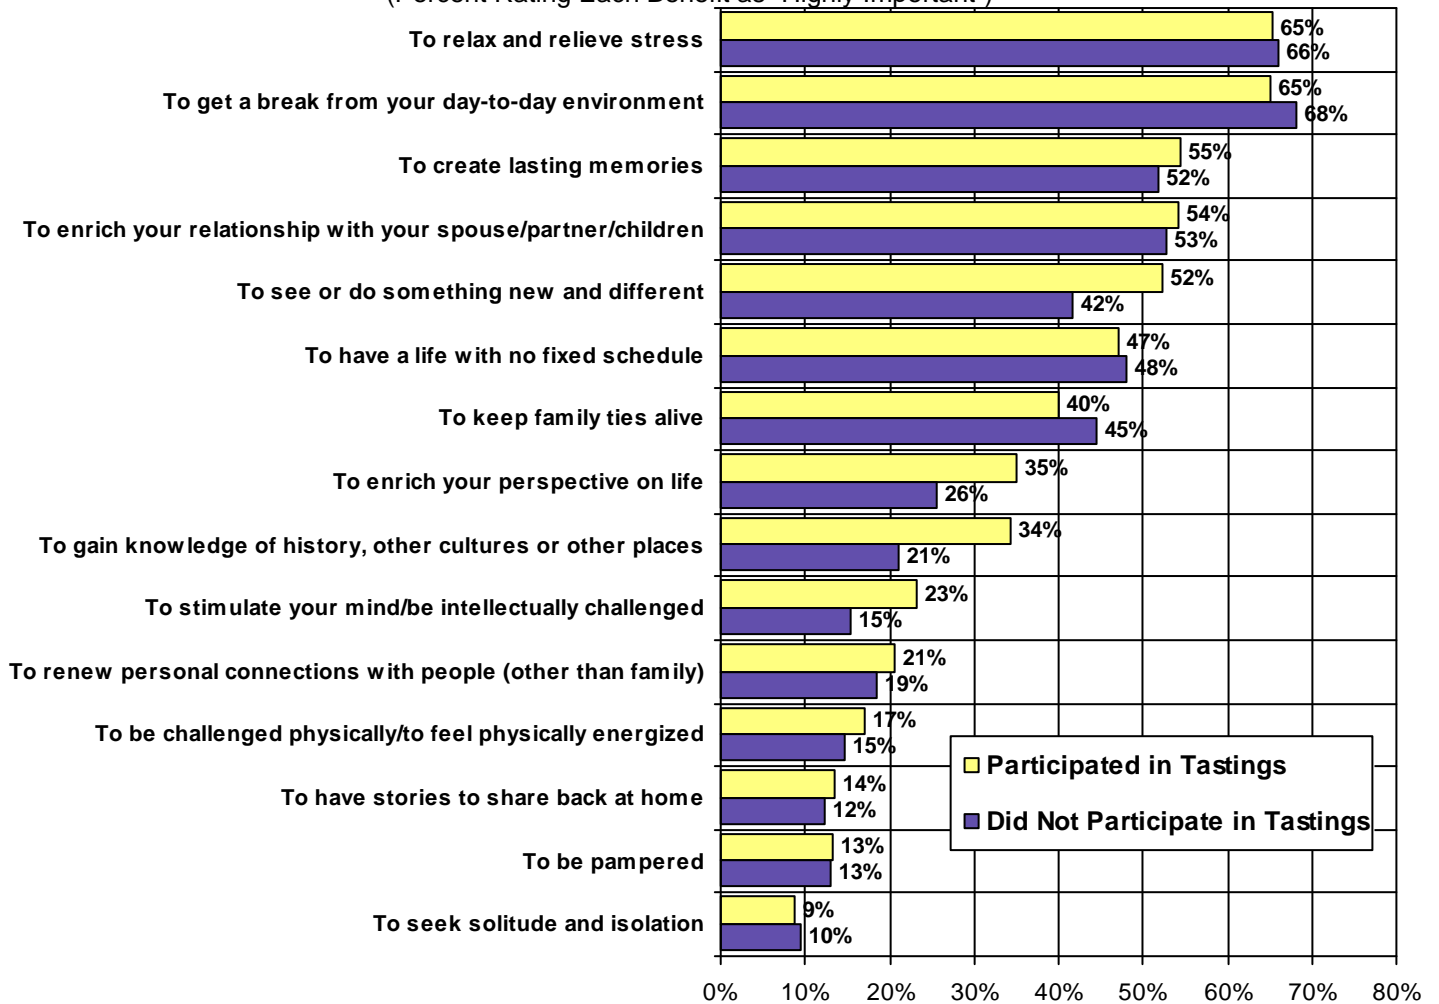

Fig. 11 Tours and Cruises Taken During Past Two Years

Submarine cruise	0.4%	0.1%	0.1%	300

### Benefits Sought While On a Vacation

As with the majority of Canadian Pleasure Travellers, those who participated in wine, beer and food tastings while on trips take vacations to relax and relieve stress, get a break from their day-to-day environment, create lasting memories and enrich family relationships. However, relative to other Canadian Pleasure Travellers, this activity segment is especially likely to pursue vacations that offer novelty (e.g., seeing or doing something new), intellectual stimulation (e.g., enrich their perspective on life, stimulate your mind) and learning opportunities (e.g., gain knowledge of history and culture of a destination).

Fig.12 Benefits Sought While On a Vacation  
(Percent Rating Each Benefit as “Highly Important”)

**Other Attributes of a Destination Considered Important**

Similar to other Canadian Pleasure Travellers, those who participate in wine, beer and food tastings on trips consider it important to feel safe while on vacation. However, relative to the average Canadian Pleasure Traveller, this activity segment is especially likely to look for culturally distinctive destinations that offer lots of things for adults to see and do and that are directly accessible by air. Conversely, they are less concerned whether a destination has lots of things for children to see and do (since they appear to travel primarily without children) and whether the destination is conveniently access by car (since they tend to be long-haul travellers). They also consider it less important than others that a destination has low-cost package deals and friends or relatives living nearby.

Fig. 13 Importance of Destination Attributes (% Rating Each Attribute as “Highly Important”)

### How Destinations are Selected

As with most Canadian Pleasure Travellers, the majority of those who participated in wine, beer and food tastings while on trips begin planning their trips with a particular destination in mind. However, they are also more likely than other Canadian Pleasure Travellers to begin planning vacations by considering what types of vacation experiences they would like to have while on a trip.

Fig. 14 How Destinations Are Selected (Summer and Winter Vacations)

### Trip Planning and Information Sources Consulted

The majority of those who participated in wine, beer and food tastings while on trips were responsible for planning their trips either on their own (43.4%) or with someone else (16.1%). When making vacation plans, this activity segment consults a wider range of sources than the average Canadian Pleasure Traveller. The majority use the Internet, word-of-mouth and past experiences to plan trips. However, this activity segment is especially likely to obtain travel-related information from travel guidebooks such as Fodor's, television programs, newspaper or magazine articles, email newsletters or magazines, official government travel brochures and visitor information centres and trade, travel or sports shows.

### Use of the Internet to Plan and Arrange Trips

Travellers who participated in wine, beer and food tastings are among the heaviest users of the Internet to research (73.7%) and book (51.8%) travel. In fact, of the twenty-one culture and entertainment activity types, this activity segment was the third most likely to research and book travel online. The majority use hotel or resort websites, official tourism websites, airline websites and travel planning and booking websites such as Expedia. They are also more likely than others to use the websites of cruise lines and motorcoach lines. The most commonly book trip components online were accommodation and airline tickets. However, this activity segment was more likely than others to purchase tickets for travel by rail, bus or ship over the Internet.

Fig. 16 Use of the Internet to Plan and Book Travel

	Other	5.2%	3.3%	3.9%	131

### Media Consumption Habits

Travellers who participated in wine, beer and food tastings are among the most frequent consumers of travel-related media including the travel sections of newspapers, travel magazines, travel websites and travel television shows. In addition to these channels, this segment may also be effectively reached through lifestyle-related media (e.g., cooking shows on television, home & garden television shows, house & home websites, city lifestyle magazines), business, finance and investing magazines and news and current events programs. In terms of radio advertising, they can best be reached through jazz or classical music radio stations and news / talk / information radio stations.
