At TransLink, we are dedicated to developing and operating an efficient and sustainable transportation system throughout Metro Vancouver. We are responsible for an integrated system of roads, regional transit, and an ever-expanding network of cycle and pedestrian pathways.

Guided by the strategic vision of Transport 2040, the region’s long-term transportation strategy, the decisions and investments we make are vital to sustainable communities, a strong economy and a high quality of life in the region.

In 2009, we delivered on many significant investments to move the region towards this vision and position our transportation system for success during the 2010 Winter Olympic Games.

The results of these efforts are the foundation of our future.

Our accomplishments at a glance

- Opening the Golden Ears Bridge
- Opening the Canada Line
- Completing and launching the MV Burrard Pacific Breeze, the third member of the SeaBus fleet
- Opening the Central Valley Greenway, a bicycle and pedestrian network running from downtown Vancouver through North Burnaby and New Westminster to Westminster Quay, increasing options for transportation other than private, single-occupant vehicles
- Delivering more than 240 new buses, including articulated trolley and the first diesel-electric hybrid buses in the fleet
- Expanding the SkyTrain fleet by 48 new railcars
- Completing the modernization of the electric trolley bus fleet
- Completing the first phase upgrade of Commercial-Broadway SkyTrain Station
- Continuing to work on the Coast Meridian Overpass in Coquitlam
- Reaching a milestone of 20,000 pass-holders in the Employer Pass Program, benefitting from the price advantage and convenience of the payroll-deduction plan
- Providing an estimated 310 million transit trips
- Conducting an unprecedented public consultation program to determine the needs, desires and willingness to pay for further improvements, and achieving TransLink’s largest-ever funding increase of $130 million annually needed to maintain existing service levels for customers.
- Creating the perfect recipe for success to move the world during the 2010 Winter Olympic Games in Vancouver.

In the year ahead, we will focus on finding new ways to deliver quality customer service in the most efficient way possible and maintain our assets in good repair as we continue to strive toward the vision of Transport 2040.
