BCFIRB Definitions for use in PARP Reporting

Licensed Producers

For the purposes of PARP reporting, unless small lot producers are specified, producer should be taken to mean licensed producers or growers, and represents one producer holding a licence to produce quota.

Licensed producers are either established producers or new producers, defined below.

Established Producers

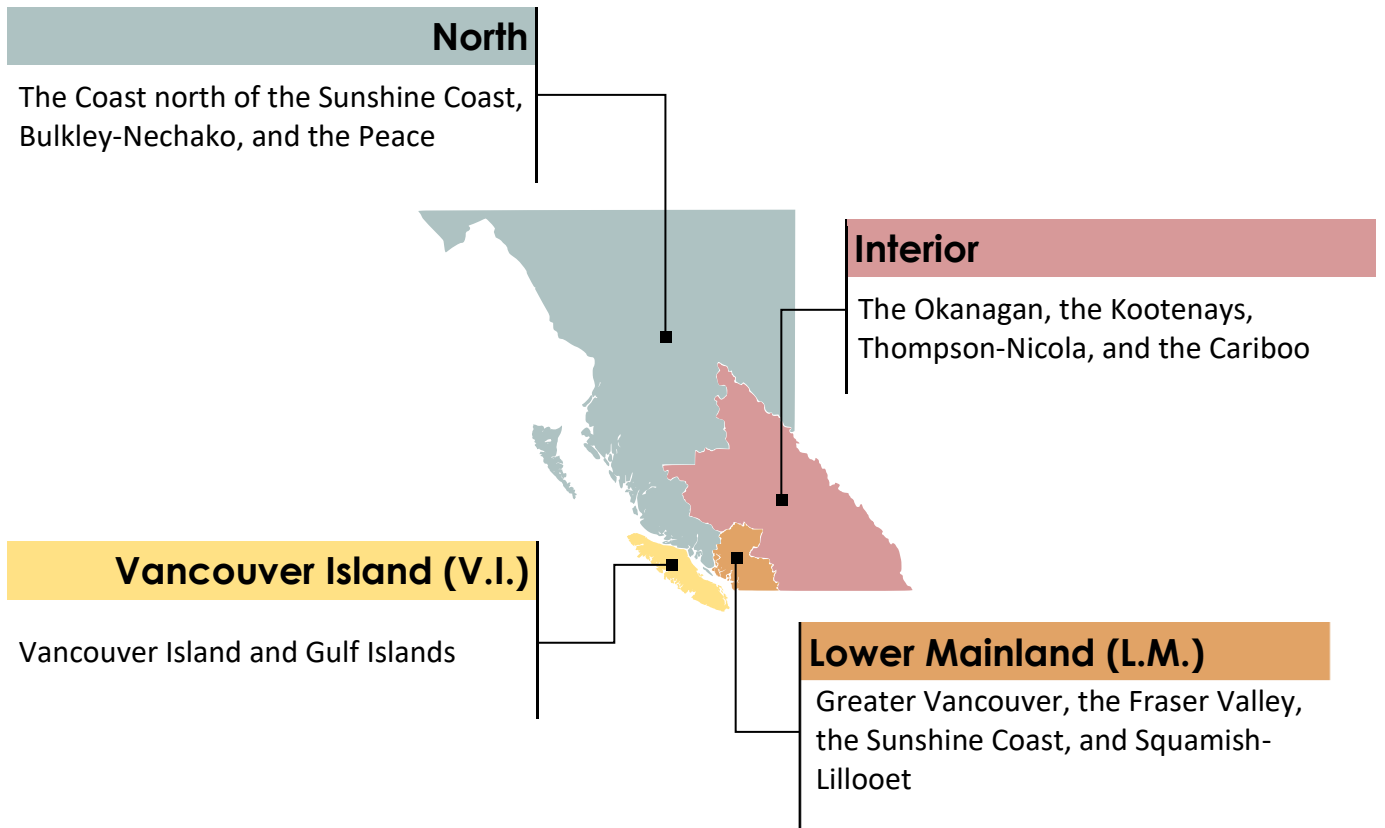

Any producers who have been in the sector for 10 years plus a day.

New Producers

Producers who have been in the sector for 10 years or less.

- For supply managed boards, a new producer is anyone who has entered through a defined New Entrant Program.
- For regulated marketing boards new producers are new licence holders who have been in the sector for 10 years or less.

BC Regions

1. Sector Performance Targets

- Sector performance targets/strategic goals are essential for establishing and communicating the future direction and structure of B.C.’s regulated sectors.
- Targets play a key role in supporting decision-making and policy development by the boards, BCFIRB and government in the interests of agriculture and the public.

1.1 Sector Performance Targets Template

- All commodity boards and commissions are to identify between 3-5 board targets/goals that you think best demonstrate the strategic priorities and future direction of your sector.
- Some or all targets/goals may already be part of your strategic plan.

Target	Target description	Target status
<p><i>What is to be achieved?</i></p> <p><i>Example: All hatching egg producers use an Animal Care Program</i></p> <p><i>(suggested up to 10 words)</i></p>	<p><i>Example: Canadian broiler hatching egg producers are committed to providing the highest level of animal care. To meet this commitment, the Hatching Egg Commission is implementing the Canadian Hatching Egg Producers (CHEP) Animal Care Program in B.C. The roll out of the program is complete, audits start in late August 2019.</i></p> <p><i>(suggested up to 70 words)</i></p>	<p><i>Example:</i></p> <p><i>In progress</i></p>

Table 1-1

Considerations

Performance targets should:

- support your vision;
- be forward looking statements;
- fall within your authorities, and;
- include core values where appropriate.

The following areas of focus could be considered when selecting or developing targets:

- Quota production targets (annual) and any future industry performance or growth targets.
- Food safety, quality and animal-care related targets, response to consumer expectations, and audit outcomes.
- Business practice, system or partnership that promotes market development, provincial and regional growth and competitiveness and planned expansion.
- Innovation, flexibility or change that addresses industry challenges and opportunities.

2. Governance

- Effective, strategic and accountable delivery of legislated regulatory responsibilities by boards requires good governance and sound decision-making.
- All commodity boards are to complete tables 2.1, 2.2, 2.3, 2.4, and 2.5.
- Fill in the Comments/Examples column with a brief description and/or web link and/or evidence/examples.

2.1 General Governance Tools and Related Regulatory Requirements

	Indicator	In place/ In progress/ To be started	Comments/Examples
<i>Planning and reporting</i>	Strategic Plan		
	Annual Report		
	Annual General Meeting		
	Copies of all minutes, orders, reports, rules & regulations forwarded to BCFIRB as they are made

3. Sector Summary

- All commodity boards are to complete the tables in Section 3, providing the following definitions and statistics.
- *Examples are included in italics.*

3.1 Reporting Time Period

- Define the start and end date of the period being reported on their PARP report.

Reporting Period	
Start date of reporting period	<i>January 1, 2019*</i>
End date of reporting period	<i>December 31, 2019*</i>

3.2 Producer Size Definition

- Create producer size categories based on production volume or quota units that are relevant to the sector

Producer Size Definitions	
Small Producer	<i>Less than 6,000 quota units*</i>
Medium Producer	<i>Between 6,000 and 20,000 quota units*</i>
Large Producer	<i>More than 20,000 quota units*</i>

Total Production Volume in each Sector

- All commodity boards are to use these tables to report the amount of the commodity produced in B.C. over the full reporting period.
- Statistics are to be broken down by the total volume of the commodity that was produced, in each category in each region.
- Total production volume is to be the same across tables 3.10, 3.11, and 3.12.
- Supply managed boards are to report production volume per the table below:

3.10 Total Production by Producer Type and Region

Quota Transfers

- Use Tables 4.4 to 4.9 to report on all quota transfers.¹
- On August 7, 2019,² BCFIRB amended its quota transfer directions to the Milk Board to allow for assessment free transfers of quota to non-family members off the quota exchange under specific conditions. A condition of the amendment was that the Milk Board is to report annually via PARP on the amount of quota being transferred off the Exchange, broken down by family transfers and non-family transfers. Family exemptions are defined in the table below.
- On September 13, 2019,³ BCFIRB extended the PARP reporting requirement for separating out non-family/family quota transfers to all supply managed boards, regardless of whether there is a quota exchange.

BCFIRB Directed Quota Transfer Assessments and Exemptions	
Assessed Transfers	Exempt Transfers
<ul style="list-style-type: none"> • The first time new entrant quota is transferred it is subject to a ten year declining transfer assessment (10/10/X) per QATE 2018⁴ • The first time quota issued by a board less than 10 years ago is transferred between non-exempt persons, it is subject to a ten year declining transfer assessment (10/10/X) per QATE 2018 	<ul style="list-style-type: none"> • The first time quota (excluding new entrant quota) issued by a board is transferred between the following exempt persons: <ul style="list-style-type: none"> ○ BHEC, CMB, EMB, MMB, TMB: <ul style="list-style-type: none"> ▪ Spouse, sons, daughters (2005) ▪ For business reorganization purposes where ownership percentages don't change (2005) ▪ Siblings where the quota being transferred remains attached to the farm in question (2007) ○ MMB only: <ul style="list-style-type: none"> ▪ Nieces, Nephews and Grandchildren of quota holders and the spouses of quota holders. (2015) ▪ Non-family members where quota remains attached to the farm in question, for succession purposes. (2019)
